

FTE Services at Calyx

The Spectrum

- Contract Research
- Custom synthesis
- Process research and development
- Process improvement
- Synthesis of libraries
- Scale up
- GMP Validation batches
- Impurity profiling
- Process and cleaning validation studies
- Analytical method development and validation

Infrastructure:-

- Strong R&D ... delivering diverse chemistries from single to multi-step synthesis
- Well equipped Gram to Kilo Level Laboratories
- Well equipped Analytical laboratories including NMR, GSMS, HPLCs, HPTLC, FTIR, GCs etc.
- More than 200 scientists... postgraduates doctorates post- doctorates and chemical engineers
- Dedicated Scientists for Informaticsutilizing latest chemistry software
- Technology support team
- Regulatory support team
- Teleconferencing and Video conferencing

Project Management:-

- Well defined deliverables
- A dedicated team of scientists/ Project Managers for each project
- Working 24x7 to honor commitments with agility
- Involvement of customer during development
- Mutually agreed documentation
- Periodic review
- Knowledge sharing
- Administrative & Legal support for Reporting, Communications and Confidentiality
- Business Ethics ...Respecting CDA and IPR
