

Contract Manufacturing:

The multipurpose manufacturing plants have capabilities to produce in compliance with cGMP, USFDA, WHO, EDQM, ISO, IHS and COS norms. Besides conforming to cGMP and cGLP, due attention is given to safety, Health & Environment aspects. Passion for excellence and commitment in quality, safety, environment and technical capabilities enables Calyx to deliver in a highly professional manner and with a sense of urgency while upholding the highest business ethics.

Calyx possesses a rich experience in the manufacture of a range of products for companies of global renown. Over the years, its proactive investment in state-of-the-art cGMP facilities has enabled it to execute APIs and advanced intermediates.
